About Us

The Social Tech is a team of like-minded changemakers, who believe in leveraging Technology to bring about a holistic change in the development sector. We aim to technologically modernize the non-profit's ecosystem, to minimise its operational burden. Thus, enabling the non-profit to focus on what matters the most, that is, “**Inclusive Community Development**”.

Why Us?

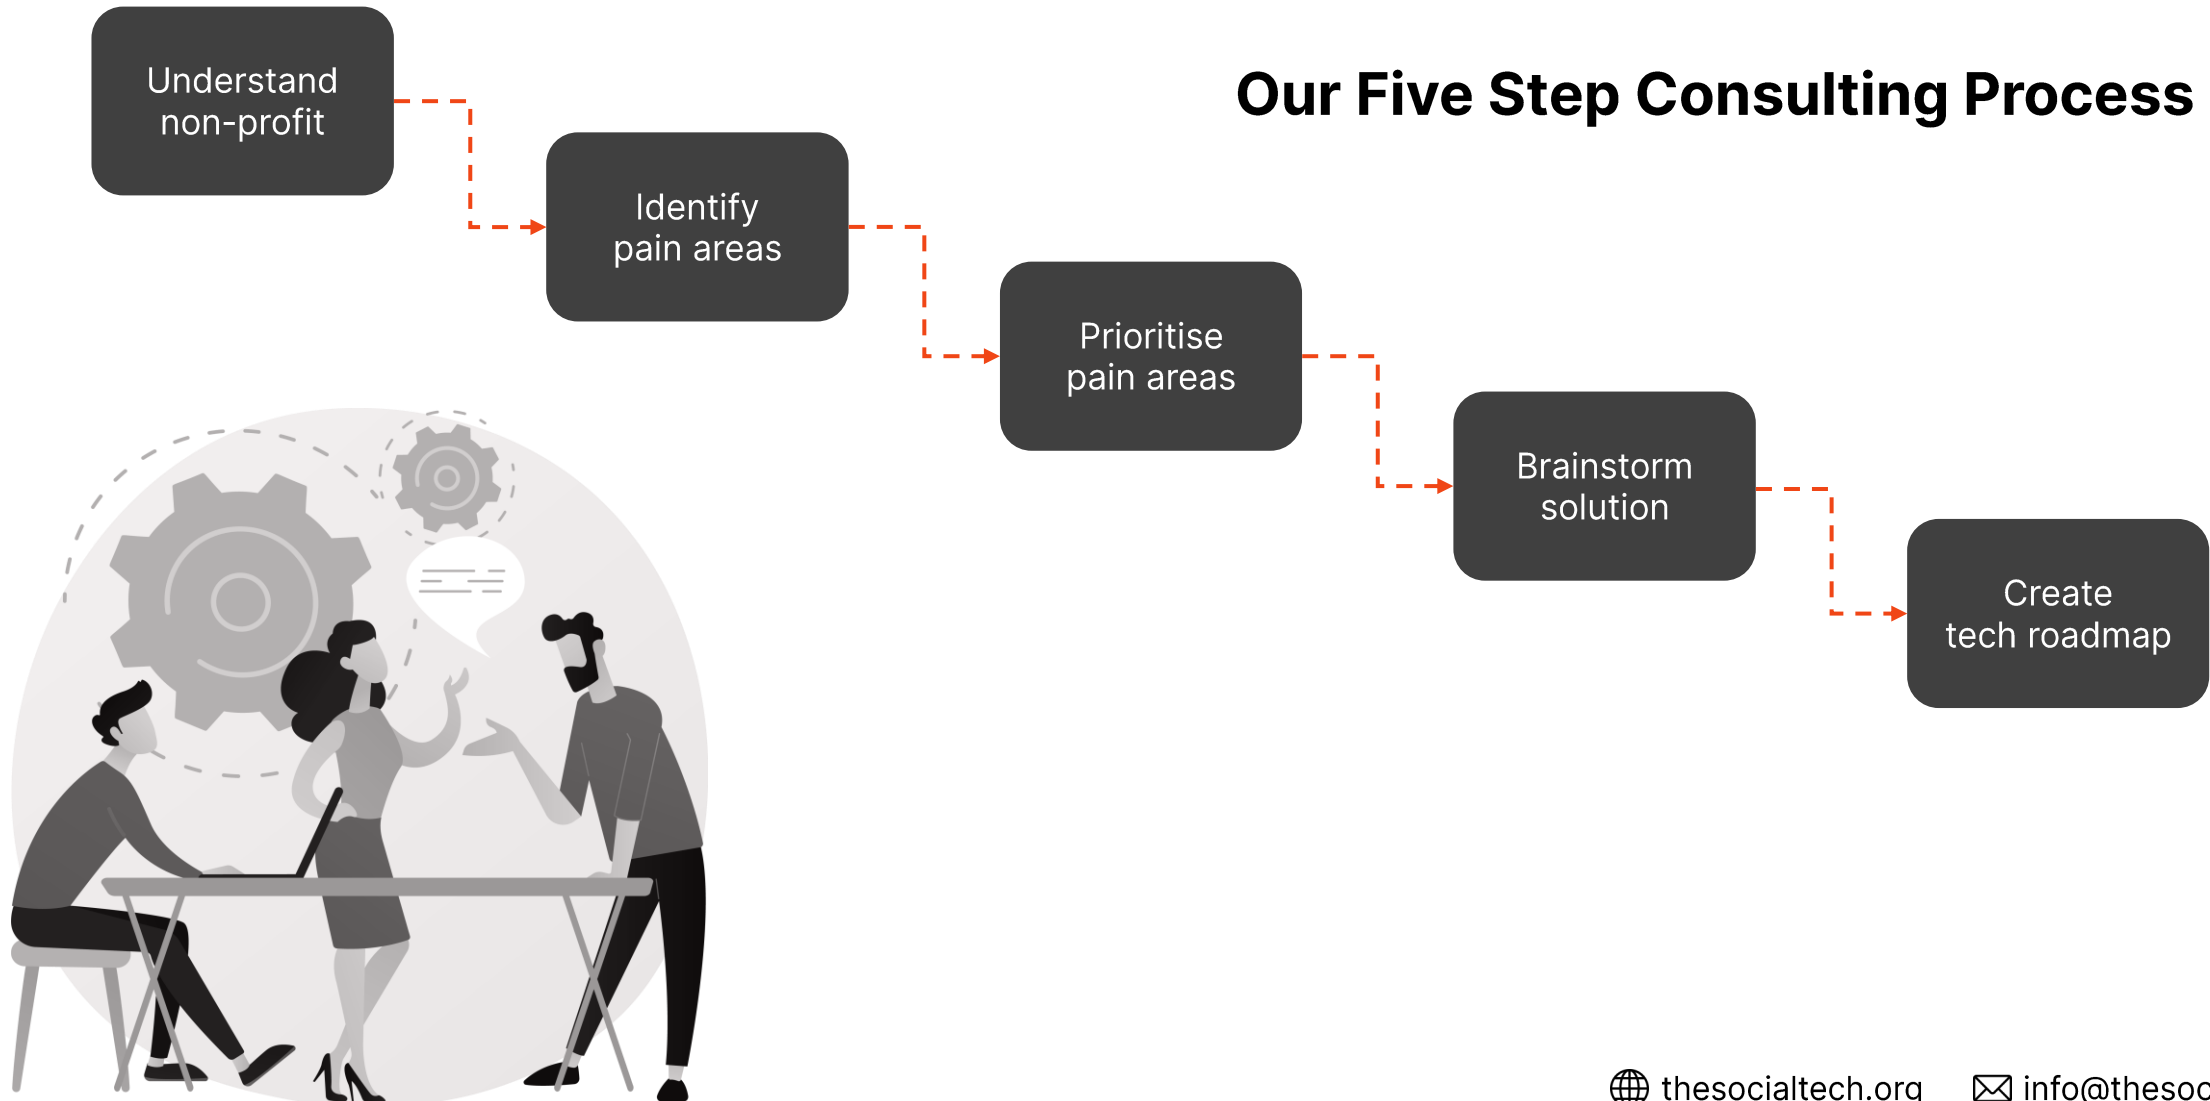

We provide **standard offerings for free**, while charging only for the detailed customizations on a case to case basis.
